Mateus Cechetto

Profile

Software developer passionate about simple and impactful solutions.

I've experience with **Java, Groovy, TypeScript, Angular, HTML/CSS, Android** and **Kotlin**, I also have used **Python** during my graduation and I have interest in learning it more deeply.

Work Experience

- **Lantec UFSC** (September 2018 - May 2020)

  Worked as **Front end Developer** in 2 different projects, both for the Brazil Department of Education (MEC). In both projects my activities were:

  - Develop the front end application with **Angular, TypeScript, HTML** and **SCSS**
  - Consume MEC's API
  - Discuss new features with the Design Team
  - Help to prioritize the itens in the Product Backlog

  `Angular` `TypeScript` `API consumption` `HTML/SCSS` `Bootstrap` `Git/GitLab` `Scrum`

- **ZG Soluções** (February 2022 - July 2022)

  Worked as **Back end Developer** on a web application for healthcare industry. My activities:

  - Maintenance of the system, resolving tickets created by the consumer service
  - Adapt web crawlers to be effective in a broader number of websites

  `Groovy` `Java` `REST` `Postgresql` `Microservices` `RPA (web crawler)` `Regex` `Git/Gitflow`

Personal Projects

- **MaquiAR** - Android app that uses **Augmented Reality** to let users try-on makeups before buying them online

  `Android` `Kotlin` `Java` `ARCore` `OpenGL`   `GitHub` `YouTube`

- **Windows XP: Mateus Cechetto Edition** - My portfolio website to showcase some of my projects. It simulates a Windows XP desktop.

  `Angular` `TypeScript` `HTML/SCSS`   `GitHub` `Website`

Education

Universidade Federal de Santa Catarina (UFSC) - Bachelor of Information Systems
